You call it in
We'll bring it out!

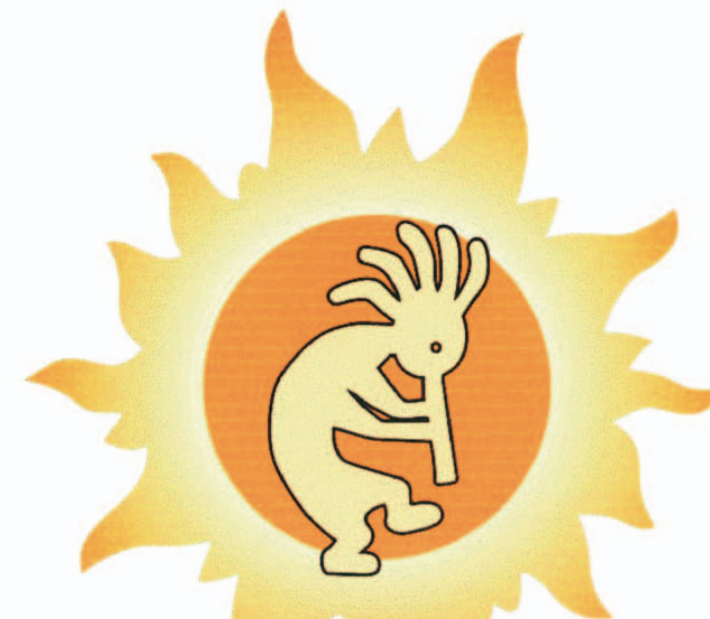

Who is this dancing flute player?

The Kokopelli image first appeared more than 1,000 years ago etched into canyon walls by Native Americans in a land which is now Arizona. It came to symbolize many things - from mischievous pranksters to a healing shaman. From a symbol of fertility to the rainmaker who brings spring flowers. The Kokopelli is seen as a familiar friend and a merry spirit. He is truly a symbol of the American Southwest.

At Arizona Pizza, he is our good luck charm, that we affectionately call "Fat Daddy"
